To whom it may concern:

I am writing this reference letter on behalf of Yuvraj Khosa. I have known Yuvraj 2016/2017 school year at Frank Hurt Secondary School when he first started at Frank Hurt as a grade 8 student.

Yuvraj has always demonstrated an aptitude with computers and mathematics. As his IT10 and ICTM11 (a.k.a. GameDev 11) teacher his work has been done with care, attention to detail, excellence and on time.

In the ICTM11 course he was able to work collaboratively in a team of two other students, developing three different computer game projects. He demonstrated and developed his soft skills such as project planning, collaboration, teamwork and communication both written and verbal. He also demonstrated his math skills in the types of games he produced. One of his games that he created required some sophisticated math to implement the mechanics of the game.

Yuvraj is a very mature, conscientious and responsible person. He is a hard working individual, is able to work in teams and takes well to comments and instructions.

If you have any further questions, please feel free to contact me at my email address:
